

Non Commitment Data Plan-PAYG

Our new Non-Commitment Data Plan is the perfect 4G / 5G solution to compliment your LEO technology onboard. Achieve seamless connectivity by aggregating our SIMs to your existing LEO connection to provide instant redundancy in the event of a satellite disruption, or loss. Once provisioned, the tariff is auto-managed and requires no intervention from you, or us. This plan can also be used as a robust backup network for unpredictable usage patterns.
